## SING ORFF

Summer is just around the corner ....

Dreaming of all the fun stuff we will be able to do in a few weeks time, when restrictions are lifted - Go hiking ... go camping ... Go to the beach ... Go to the park ... So many things ..... but one of the most enjoyable things you could do would be to

**GO FLY A KITE!**

Let's face it, you are not going to be able to fly a kite sitting around all day watching TV! The weather is nice outside. So why not put the screens away for a little while and fly a kite? Nothing can compare to flying a kite in a wide-

open field with a warm breeze - once you have tried it, you will fall in love with the challenge of getting the kite up in the air.

And once you have mastered how to get the kite flying, you can then go on to learn how to keep it in the air and even proceed to learn a few manoeuvring skills.

But the best and most important reason to go out and fly a kite is that it is SIMPLY JUST FUN!

To get you in the mood for flying a kite .... We thought you would like to learn a song called

"**Let Go Fly a Kite**". Some of you may be familiar with it, particularly if you are into film musicals, because the song comes from the Disney blockbuster "**Mary Poppins**" from 1964 - a musical fantasy film directed by Robert Stevenson and produced by Walt Disney, with songs written and composed by the Sherman Brothers.

It is a light-hearted and singeable song that never seems to date!

2. Now go to Marian's link and let's learn to sing the CHORUS of the song together:- <https://youtu.be/jrs66tnyoQY>

## GET CREATIVE!

It is important to stay creative. When we are creative and express our artistic abilities, not only does it help our brains to process our own emotions and experiences, it also makes the world around us more colourful. Kite making is good for both kids and adults. But honestly, the best thing about making your own kite is getting it up in the

air! Seeing your art soaring through the sky is definitely a rewarding feeling. So get those creative juices flowing. Make a kite! Fly a kite!

You will find lots of instructional youtube videos on how to make your own homemade kite. You can use anything from newspaper to rubbish bin bags. <https://youtu.be/vw5PbthBWg4>

What  
if?

## YOU WERE A KITE?

What colour are you?

Do you have a tail?

How high up are you?

What can you see?

You were having a peaceful day way up high in the sky enjoying the sun and fresh air. Suddenly a gust of wind takes your happiness away as your string snaps and you fly away.

What happens next in the story?

## COLOURING TIME
